Each house is a Being and this Being is Plenitude.

Plenitude is the state of being complete, whole; it is greatness or superabundance.

This luxurious T3, in Câmara de Lobos, is the perfect definition of plenitude: here you can live in abundance and enjoy modern finishes and a stunning view over Câmara de Lobos Bay, the Ilhéu garden and Cabo Girão.

A bright entrance hall will be the guide for three different plans. In the first, on the left, a glass door will offer you sunny afternoons in a private garden. On the right, you will find a very generous and bright open space
